BARCODE SCANNING AND LABELS

Is barcode scanning products and bins at the top of your 2018 fix list?

The first step is to ensure your products & warehouse bins are barcode ready.

Click the image to download our barcode scanning information

“TIP OF THE DAY”

Does your database need some maintenance to improve speed across your network?

Your System Administrator can help by running Remove Obsolete Data under the Tools Option

You can remove Quotes, Orders, Estimates, Log and Spool files using this option
